---

whic one is better for modeling,rendering,lighting,learning,biginer?

3dstudioMax

Alias

Rhino

Maya

please answer in english

for games using 3d max, Maya

for the production of special effects, 3d max, Maya

for the production character animation 3d max, Maya

to visualize the interior - of the main 3D max

Industrial Design Alias Rhino

modeling cars for production - Alias

modeling yachts and boats Rhino

vacuum cleaners, hair dryers, cell phones, keyboards, pots pans, washing machines, microwave ovens,  
etc. design and modeling done in Alias Rhino and CATIA

now even harder? :laugh:

start with Maya 100% ;)

thanks for your reply.

im am industrial designer . and im begginer for 3d softwares i know a little about 3ds max and rhino but i  
like to concentrate on one of them to be proffessional so i want to know which one is better?

thanks
