

Move Curve

Послан toni - 11.06.2011 03:08

Privet vsem.

U menia takaya zadacha:

Kak sdelat 100% kopiju "curve" na raznyh ploskostiah?

Kogda ya perekliuchajus na druguju "construction plane" i delaju "copy"-"paste"-"move"-"snap to center plane" vsio otlichno rabotaet tolko crivaya ostajetsia planarnoi pervichnoi ploskosti. Ya proboval sdelat "curve planarize" ukazyvaya novyju ploskost, no eta operaciya izmaniet fromu crivoi.

Pozhalusto pomogite.

Move Curve

Послан toni - 11.06.2011 03:51

Privet

Ya nashol odin metod eto "transform curve" posle kopirovaniya i peremecheniya krivoi.

Perehozhu na novuju "construction plane" v vide sboku "snap to grid" i pravaya clavisha misy.

Krivye po analyzu dlinny perimetra krivoi odinakovy.

Mozhet est kakie drugie metody?
